

Elite Fragmentation and Blast Resistant Helmet + Visor

Elite Helmet:

- Fragmentation resistant MICH helmet with high tenacity aramid fiber construction.
- Over-the-ears protection.
- Fully adjustable leather headband suspension with cushioned crown piece. The headband can be adjusted with snap fasteners from size 23 inches to 28 inches of the head circumference of the End User.
- Single piece fully adjustable leather chinstrap with integral chin cup.
- STANAG 2920 V50 = 575 m/s

Elite Visor:

- Dismountable from the helmet. Extended length (11.5 inches)
- STANAG 2920 V50 = 210 m/s
- Visor is secured with locking fasteners to the bracket on the helmet.
- Visor can be flipped up – locking screw-nut fasteners to prevent detachment of the visor from the bracket due to vibration.

Elite Fragmentation and Blast Resistant Vest

Fragmentation resistant vest for protection to the following areas:

- Seamless Front and back protection. The front of the jacket has no seams or undercuts from where the blast wave can catch and breach the jacket ensemble.
- Full arm protection
- Extended Shoulder protection, left and right
- Front and Back Pelvic (groin) protection
- 360 degrees Collar (neck) protection
- Front throat protection.
- The jacket includes a blast deflecting collar which serves to position and stabilize the Visor by resting its bottom edge inside this collar. This collar can be cinched and tightened to fit the Visor snugly and provide operational balance and stability to the end user.
- Protection: NATO STANAG 2920, V50 = 450 m/s
- Customizable to torso dimensions, performance and weight.
- Grab Strap located on upper back for ease of extraction during an emergency.
- Quick Jacket Release mechanism to rapidly release the entire jacket from the User's Body with the use of two Pull Straps, one on the left shoulder and second on the left side of the waist.

Elite Fragmentation and Blast Resistant Trousers

- Protection per NATO STANAG 2920 V50 (17 grain / 1.1 gram FSP): 575 m/s

Additionally as an option, ballistic protection up to NIJ Level IIIA and NIJ Level III is available to be integrated into the Shin Guards.

- Standard coverage of protection consists of thighs and groin.
- Additional optional protection available for integration into the regular Shin Guards: Thighs and shoes (with fragmentation resistant overshoes)
- Fragmentation resistant overshoes provide blast and shrapnel resistant surround protection all around the regular shoes
- Available in Green, Blue, Black and Tan colors
- Design allows full articulation at the knees and the full range of operational motions and mobility / articulation as required by the end user.
- Special provisions for easing stress points for User in extended sitting position
